SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

US&R Deployment - Hurricane Maria

Mission Number 2017-FIRE-38901 (FEMA Activation). Resources requested in support of Hurricane Maria impacts:

- California US&R Red Incident Support Team (IST) – 2 personnel from California

US&R Deployment – Tropical Storm Nate

Mission Number 2017-FIRE 39182 (FEMA Activation). Resources requested in support of Tropical Storm Nate impacts:

- California US&R White Incident Support Team (IST) – 5 personnel from California

Cal OES EMAC Missions

- **2017-Cal OES-39192:** Three (3) Cal OES EMAC A-Team Members to assist Puerto Rico EMA with the EMAC process. The team will deploy to San Juan, Puerto Rico on 10/09/17. Demobilization is currently scheduled for 10/24/17.
- **2017-Cal OES-38848:** One (1) Cal OES staff and one (1) California Volunteers staff to report to the Florida State EOC for response operations that will assist and supplement ESF-15 staff in coordination of Volunteers and Donations Management at local Emergency Operation Centers. Both staff deployed on 09/16/17. Deployment has been extended by an additional two weeks. Demobilization is now scheduled for 10/12/17.
- **2017-SOC-38856:** One (1) Public Assistance (PA) Coordinator from the state of New Jersey has been assigned to California through the EMAC system. The PA Coordinator traveled to California on 09/17/17 and reported to the JFO on 09/18/17.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 3	Preparedness Level 3
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Buck, Vegetation Fire, Trinity County

Location: 2 miles NE of Buck Ridge, 2 miles NW of Black Mt.

Jurisdiction: Federal DPA, FRA, Shasta Trinity NF

Per Cal OES Duty Officers and ICS-209 as of 10/07/17 at 1159 hours:

- 8,065 acres, 89% contained
- Expected Containment: 10/15/17
- Threats to Class 1 air shed, 5 single residences, 1 minor structure and historic cabins

Lion, Vegetation Fire, Tulare County

Lion Creek, Golden Trout Wilderness x 11 miles northeast of Camp Nelson

Jurisdiction: Federal DPA, FRA, Sequoia National Forest

Per Cal OES Duty Officers and ICS-209 as of 10/07/17 at 1736 hours:

- 10,950 acres, 0% contained
- Expected Containment: 11/27/17
- Moderate fire behavior
- Structures threatened
- Crews continue to use backing fire to moderate any potential for extreme fire behavior

WEATHER OF CONCERN

Weather of Concern

- A strong and potentially damaging offshore wind event is expected for Ventura and Los Angeles Counties late Sunday night and Monday. Gusty northeast winds will likely develop Sunday evening and strengthen overnight.
- Winds should peak in strength Monday morning before slowly diminishing Monday afternoon.
- At this time, it appears there is the potential for damaging wind gusts of 60 to 65 MPH across the mountains of Ventura and Los Angeles counties including the Santa Monica Range.
- Potential impacts for the area include: downed power lines and trees, hazardous driving conditions for high profile vehicles, and critical fire weather conditions, especially for the coast, valleys and Santa Monica Mountains due to the combination of offshore winds and low relative humidity.
- High fire danger today through Monday due to gusty north to east wind and low humidity. Use extra caution to prevent fires.
- **Active Weather Warnings, Watches and Advisories by County:**

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

***** "High Risk" Significant Fire Potential in some areas west of the Cascade/ Sierra crest Sun/Mon for rather strong, gusty N to E winds/low Relative Humidity (RH) *****

The weather pattern over the region will be changeable over the next week. Dry weather is expected over the region for the next 5 days. The next few days will have very low RH with poor overnight recoveries even in some areas without much wind. High pressure moving into the Pacific NW this weekend will generate another round of relatively strong, gusty N to E winds and low RH for our region. "High Risk" of Significant Fire Potential is in place for many areas west of the Cascade/ Sierra crest Sunday into Monday. The Sacramento Valley/Foothills (NC05) will see windy conditions develop starting early Sunday, followed by the Mid Coast (NC02), North Coast (NC01) and Diablo-Santa Cruz Mountains (NC03B) Predictive Service Areas (PSAs) Sunday afternoon. The winds will continue tonight but are expected to diminish significantly by or around midday tomorrow depending on the area. Low RH (10-20%) and poor overnight recovery will occur in many areas with or without wind through Tuesday before RH increases some. Wind speeds will be 10-22 mph with most gusts ranging from 25-35 mph, but local gusts around 40 mph will be possible. By Tuesday night it looks like a trough will move into place along the coast then move inland the latter half of the week. This will cool things down and bring RH up considerably, and it may also bring some wetting rain to the northern areas and eastern mountains Thursday and Friday. The warmest inland areas will be in the mid and upper 80s today, near 80 Sunday through Wednesday then could drop to near 70 late next week.

SOUTHERN CALIFORNIA

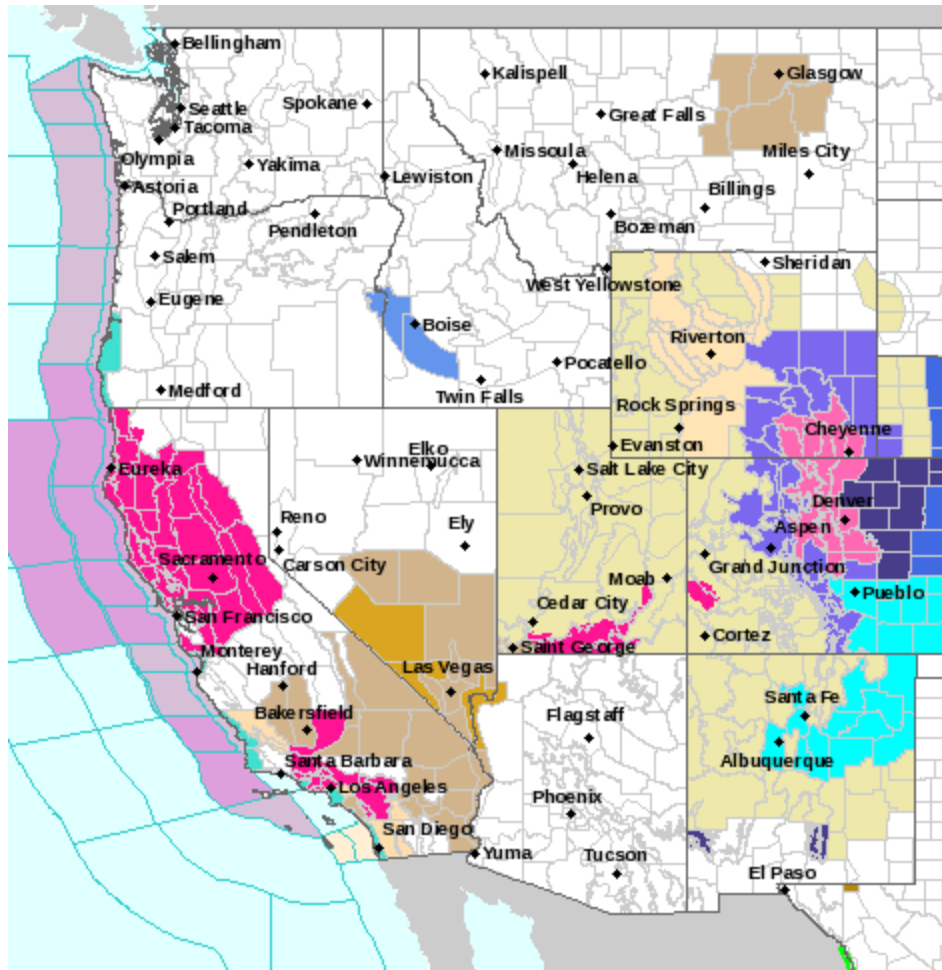

*****Very warm and dry today*****

*****Strong offshore winds and very dry Monday*****

*****Very dry Tuesday*****

Temperatures will cool to the 60s to low 70s across the mountains and mid 70s to mid 80s in the valleys today as a trough drops into the Great Basin from the Pacific Northwest. Minimum humidity will increase to above 20% across most of the region today. This trough will also bring westerly winds of 20 to 30 mph with gusts to 50 mph to the wind prone mountain and desert areas today. Strong surface high pressure will set up over Southern Idaho bringing northeast winds of 20 to 40 mph with gusts to 60 mph to the mountains and below the canyons and passes of the region tomorrow. Temperatures will cool another 5 to 10 degrees across the mountains and deserts tomorrow, but temperatures will warm a couple of degrees across the coastal and valley areas. A weak ridge aloft will move over California bringing a few degrees warming to the entire region Tuesday. Minimum humidity will drop back into the single digits and teens tomorrow and Tuesday. A cooling trend and an increase in humidity will take place Wednesday through the end of next week as a weak Pacific trough sits over the West Coast. There will be westerly winds of 15 to 25 mph with gusts to 40 mph across the wind prone mountain and desert areas Wednesday through the end of next week.

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-Coastal-37716:** One Air Monitor for Humboldt County (On Scene)
- **2017-Inland-37776:** Two Air Monitors for Mariposa County (On Scene)
- **2017-Inland-38039:** Five California Air Resources Board (CARB) air monitors have been placed in Siskiyou County to monitor smoke from numerous wildfires in Siskiyou County as well as smoke drifting into Siskiyou County from wildfires in Modoc, Trinity, Del Norte and Humboldt counties. (On Scene). Siskiyou County is working with CARB to schedule a removal date of the monitors.
- **2017-SOC-38645:** One California Department of Transportation Archeologist to support the Joint Field Office (JFO) from 09/27/17 to 10/27/17. In coordination with a Cal OES Senior Environmental Planner, the Associate State Archeologist will review Disaster Damage Descriptions for potential California Historical Resources Information System (CHRIS) requests and request CHRIS reports when necessary.
- **2017-Cal OES-38400:** One Air Quality E-BAM modem for Klamath (Del Norte OA)
- **2017-IREOC-38682:** DTSC Hazardous Waste Task Force (Helena Fire)
- **2017-IREOC-38683:** CalRecycle Debris Management Task Force (Helena Fire)
- **2017-Inland-37583:** DTSC Hazardous Waste Task Force (Detwiler Fire)
- **2017-Inland-37584:** CalRecycle Debris Management Task Force (Detwiler Fire)
- **2017-Cal OES-38725:** Caltrans to perform bridge inspections on the National Trails Highway, San Bernardino County (On Scene)
- **2017-Cal OES-39103:** Emergency Communications for Fleet Week in San Francisco County from 10/05/17 to 10/08/17.
- **2017-Cal OES-39160:** Communications Support for the Helena Fire, Trinity County.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
